

COSMO *moto* accessories

Tracer 900 LED

Installation Instructions

Photo 1

Step 1: Unbolt the 4 bolts that hold the forks (photo1)

Photo 2

Step 2: Install the tracer LED as on the photo 2

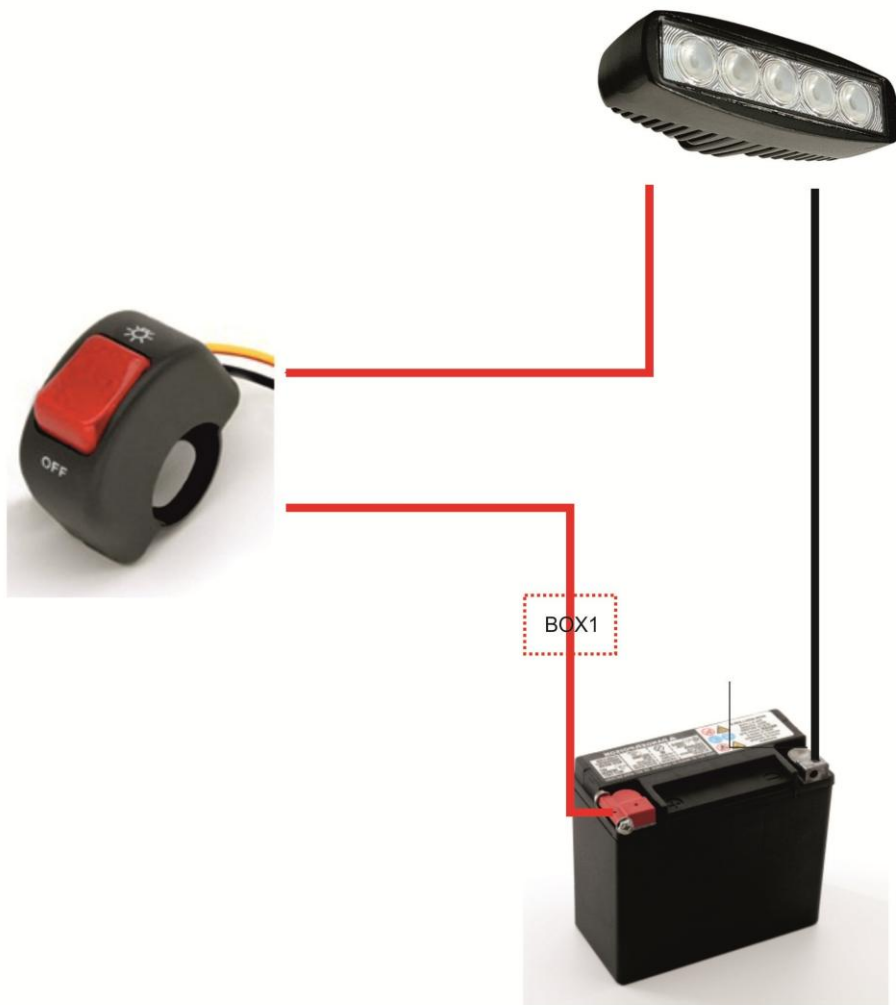

Photo 3

Step e: Connect the cables according to the photo 3. We suggest adding a relay at the BOX1 position.

You can also power the LED light using one of the bike's power outlets positioned behind the display (photo4)
